## Experience

### Frontend Developer

JUNE 2021 - DEC 2021

**Nomade4SDGs**

**Project:** is a mobile platform designed for digital nomads and remote workers to confidently travel with a positive impact.

**Team size:** 6-8 members.

**Responsibilities:** Develop the frontend of the mobile application and website using React Native and Next JS.

### Fullstack Developer

MAR 2021 - JUNE 2021

**PayParc**

**Project:** offers a unique electronic payments platform that has been specifically designed for the travel industry.

**Team size:** 5 members.

**Responsibilities:** Started my journey with React, developing components and Node JS REST API.

## Education

### Academia EDIB

2019 - 2021

**Associate of Computer Science**

This is where I started my journey as a Programmer, learned basics of JAVA, Android Studio and HTML/CSS.

### IES Juniper Serra

2017 - 2019

**Associate of Electrical Mechanic**

From my childhood I had a big interest in this field, but after this degree I realized that it wasn't made for me.
